Dear Mr. Osika:

Per conditions of the Access Agreement, dated November 9, 1992, the following individuals were permitted access to the Richardson Flat Tailings property for the purposes of obtaining groundwater samples and conducting a gamma probe survey for the three EPA monitoring wells:

- 1) Mike Zimmerman, On-Scene Coordinator (OSC), EPA;
- 2) Troy Sanders, Geologist, Ecology and Environment (TAT I);
- 3) Cordel Schmidt, Geologist, Ecology and Environment (TAT I);
- 4) Sam H. Baughman, Geologist, Roy F. Weston, Inc. (TAT II);
- 5) Charles S. Novinskie, Managing Engineer, BPB Instruments, Inc.

A summary report of sample activities, along with monitoring well gamma logs will be available in the near future from EPA analytical contractors. We will endeavor to send a copy of this information as soon as it is received.

In closing, we appreciate your cooperation with EPA's site assessment. As the final assessment effort nears, we will be in contact to coordinate site activities.

Sincerely,

Mike Zimmerman, OSC
Emergency Response Branch
